PROFILE

Ambitious and open-minded engineering graduate with a Master's degree in Database and Software Technologies. I bring a motivated attitude, strong technical knowledge, and the ability to collaborate effectively within teams. Passionate about software development and continuous learning, I aim to contribute to innovative and impactful projects.

EMPLOYMENT HISTORY

Javascript Enginner Jan, 2025 – Present
Cisco Systems Inc
Bucharest

- Designed and implemented intuitive UI features for Cisco's Nexus Dashboard Fabric Controller (NDFC), enabling enhanced visibility and control over network performance and health.
- Performed system maintenance, implemented bug fixes, and optimized code to enhance overall performance and reliability.

Full Stack Developer Dec, 2021 – Dec, 2024
Decathlon Romania
Bucharest

- **Testing Implementation:** Developed end-to-end tests with Cypress and unit tests with Jest and Vitest, boosting app reliability.
- **Backend and Frontend Optimization:** Refactored and optimized internal apps, increasing performance and efficiency.
- **Enhancements to Decathlon.ro:** Developed new features like wishlist and loyalty programs.
- **B2B App:** Enhanced B2B app with new features like reporting, discounts, and batch processing.
